

# Thank You For The Music

V1            B2    I'm nothing special, in fact I'm a bit of a bore  
              B1    If I tell a joke, you've probably heard it before  
              B2    But I have a talent, a wonderful thing  
              A B1 'Cause everyone listens when I start to sing  
              A C    I'm so grateful and proud  
                  All I want is to sing it out loud

Ch1            A B1    So I say  
                  Thank you for the music, the songs I'm singing  
                  Thanks for all the joy they're bringing  
              ABC    Who can live without it  
              A B1    I ask in all honesty  
                            All honesty  
                  What would life be?  
                            What would life be?

              A B1    Without a  
              ABC    song or a dance what are we?  
                  So I say thank you for the music  
                  For giving it to me

V2            C     Mother says I was a dancer before I could walk  
              A     She says I began to sing long before I could talk  
              B1    And I've often wondered, how did it all start?  
              A B    Who found out that nothing can capture a heart  
              C     Like a melody can?  
              ABC    Well, whoever it was, I'm a fan.

Ch2            A B1    So I say  
                  Thank you for the music, the songs I'm singing  
                  Thanks for all the joy they're bringing  
              ABC    Who can live without it  
              A B1    I ask in all honesty  
                            All honesty  
                  What would life be?  
                            What would life be?

              A B1    Without a  
              ABC    song or a dance what are we?  
                  So I say thank you for the music  
                  For giving it to me

Ending        ABC    So I say thank you for the music  
                  For giving it to me
